CLASSES

We enjoyed our class feasts with our families. Thank you all for your donations. Sharing a meal together is a great way to connect and bond with your child.

PLAY = LEARNING

Our focus on play this month is on Block Play. Block Play enables children to learn spatial awareness. Social development also lends itself to block play while interacting and working with others. Problem solving skills and resiliency come naturally while working through constructions and their failures. Vocabulary is developed through talking about their construction and buildings. Blocks are essential in building STEM skills in shape, size, weight, area, balance, leverage, and more.

IPS NEWS

We had a wonderful ornament fundraiser with IPS ornaments. We purchased over \$400 in Magnatiles. Thank you everyone!
