

IPS Director Update

Upcoming Events:

October 6-7 Library Visit
October 8, 11 CLOSED
October 25, 26 Pictures
October Fall Phone Calls

Class Updates:

Music and Movement is a big part of our day in preschool. Exposure to these activities can improve children's memory, cognitive development, fine motor skills, balance, and coordination.

Also, music promotes group learning and social and emotional development. Here are some of our favorite songs so far this year...

Butterfly- DJ Raphi

Firefly- We Are the Dinosaurs

Ladybug- Going on a Bear Hunt

Bumblebee- I'm Bringing Home a Baby Bumblebee

Grasshopper- 5 Little Ducks

Caterpillar- I Know a Chicken

Dragonfly- The Goldfish Song

COVID UPDATE:

As some of you are aware, there have been changes to mask mandates in Iowa. We will continue to follow the Indianola School District, and do not have plans to require students or staff to wear masks at this time. As always, masks are encouraged for students, staff, and visitors. I am also attaching the protocol for common childhood illnesses as a reference.

There's always lots of hesitation on sending your child this time of year, wondering if they are showing symptoms of an illness or allergies. We urge you to err on the side of caution and consult a medical professional.

Additionally, if your child cannot participate fully in activities at school, it's best that they stay home and rest.
